

Puzzle Practice

Provided by MentalBreak.to

Suggested paper size: Letter 8 ½ x 11

Introduction

Gifted kids take to puzzles with enthusiasm. These puzzles seem simple.

Once you have the pieces of a puzzle cut, mix, rotate, place picture-down on the table. Then ask your child to assemble the puzzle.

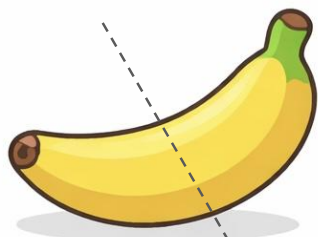

Do NOT:

- Show them the picture
- Tell them to flip it over
- Tell them what it is
- Correctly line up the parts

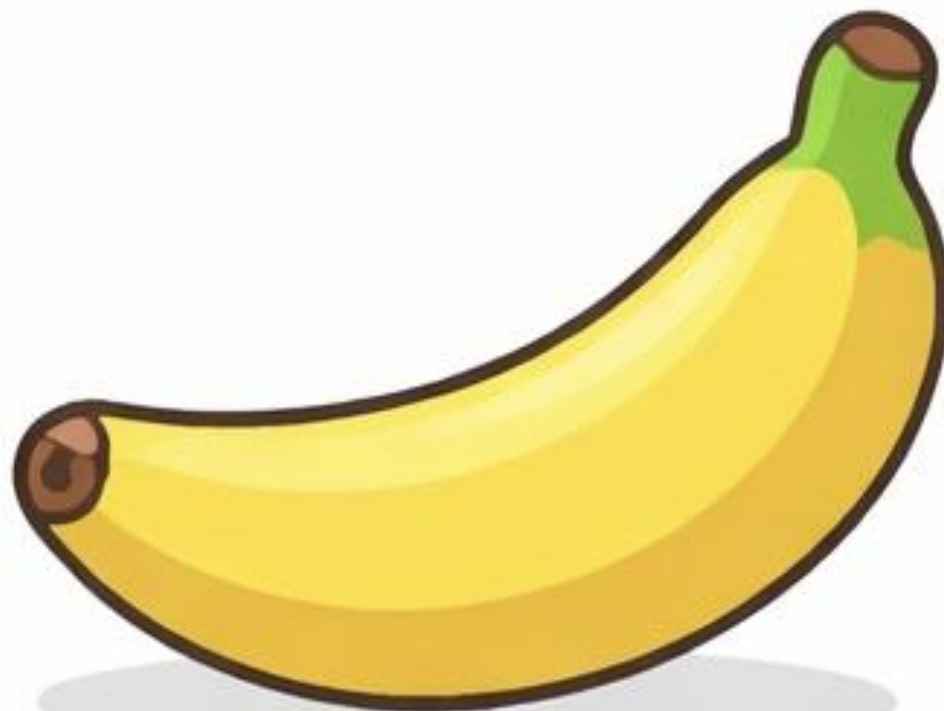

Do:

- Let them struggle, count to 30 then give a hint
- Encourage them to try different approaches
- Ask them to correctly line up the pieces
- Print pages 3 to 6

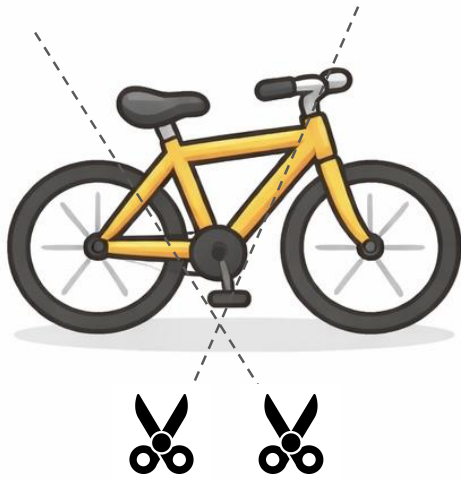

Instructions:
Cut along the outline then cut
into **2 pieces**
